

Business Resilience & Sustainability Breakfast

Fond du Lac County Economic
Development Corporation

WISCONSIN MANUFACTURING
EXTENSION PARTNERSHIP

Where: Room 0-108 at Moraine Park Technical College,
235 North National Avenue,
Fond du Lac, Wisconsin, 54936

When: October 6, 2016, 8-10 am.

Focusing on improving sustainability cuts costs, enhances resource efficiency, and can help you attract talent.

Benefits of focusing on sustainability include:

- Improved resource utilization
- Increased profits
- Reduced risk
- Reduced environmental footprint.
- Enhance your reputation
- Help in attracting new business

With increasing regulatory pressure, stakeholder and customer expectations for manufacturers to prove that they are environmentally and socially responsible, it is important to have a comprehensive plan to reduce waste and cost while using resources efficiently and maintaining a measurable ROI.

By attending this session you will learn:

- Why focusing on sustainability is important
- What bottom line results you can expect
- How and where to get started
- Key factors for successful sustainability programs
- Sustainability resources available from county, federal, private and public sources
- Green Tier and Green Masters programs

Register today for our Business Resilience breakfast workshop to learn how to formulate and implement a successful AND profitable sustainability plan.

RSVP by calling Jim Cleveland (920) 929-7581 or by email - jim@futurefc.com .
