

Lean Six Sigma Green Belt Certification Series

Intensive six-day program to reduce costs and minimize waste

If your company struggles with high variability/scrap, recurring issues, or inefficient business processes, Lean Six Sigma could be the solution you've been searching for. Lean Six Sigma Green Belt Certification contains proven methods to minimize waste and reduce costs.

Lean Six Sigma is proven to reduce costs

Graduates of Six Sigma Green Belt training program have seen an average reduction of approximately \$50,000 in their company's cost of manufacturing. Learn how to apply Lean Six Sigma techniques and develop a solid continuous improvement plan for your company. Unlike other courses, WMEP's program gives you the opportunity to work through your own company's process and immediately begin applying these techniques as you learn.

Take-Aways

Upon successful completion of the course, you will be able to:

- Develop a culture of problem elimination
- Solve problems using statistical tools
- Reduce costs and sustain those savings
- Achieve full Lean Six Sigma Green Belt Certification

Contact us for dates of upcoming courses and registration information.

We're successful because we want the same things you do including:

Cost & Efficiency - Increasing profitability through waste and downtime reductions, improved materials usage and operations, grant utilization and financial systems.

Growth - Growing revenues by reaching new customers and markets, new product development, exporting, adding capabilities through strategic hires, and improved employee productivity.

Winning Culture - Developing an environment and processes that attract and retain talent, grow employees' capabilities, and create an empowered workforce.

Certification & Compliance - Pursuing certifications that set a company apart as well as certifications needed to fulfill local, state, national and international qualifications and to achieve awards and grants.

WMEP's Value Proposition

How we're different	Why it matters	How clients benefit
We are an end-to-end solution. From supply chains to sales, we have the capability and networks to positively impact your business.	We understand the contributions of the pieces to the whole and use this understanding to help you optimize your enterprise.	We can identify the most impactful enhancements to make to your business to help you achieve your objectives.
We have extensive experience across all major manufacturing industry sectors in Wisconsin.	Our breadth and depth of experience working on projects and companies similar to yours increases our speed and effectiveness.	It takes less time for our staff to learn your business and objectives. We apply proven solutions to your business challenges.
We are all about manufacturing. We work with everyone and anyone who is committed to the success of manufacturing in Wisconsin.	We get manufacturing, and we're ready to roll up our sleeves and get to work to help you be successful and achieve your objectives.	In addition to our experienced and talented staff of experienced manufacturers, we provide access to our extensive national networks of industry experts.
We are evaluated by the results we produce for your organization. Your success is our reward.	Our objectives are aligned. We only recommend solutions that will help you achieve your business objectives.	Since the year 2000 we have generated over \$3.0 billion in total financial impact for our state economy, averaging slightly over \$450,000 per project.
