

WMEP Quick-Hit™ Rapid Improvement Event (Kaizen)

Lack of capacity? Limited resources? Are you too busy to become better?

Are there improvement projects you never seem to get to because of limited internal resources and expertise?

Is your business limited because of issues that never seem to get addressed?

We can help you in this time of limited available labor and expertise.

WMEP's consultants will join you as your internal expert to facilitate, lead and implement needed improvement activities whether in the front office or on the shop floor. If you already have other projects in process that need additional attention to keep them moving and drive them to conclusion we can manage those projects as well. In case you need more than one consultant, we can provide them with oversight by a WMEP Sr. Consultant/project manager.

WMEP can discuss and assess your needs, create a realistic project plan, and drive the implementation of that plan to meet the identified goals.

Not only will we get you up and running on the improvements quickly, we will get your staff pulling in the same direction, creating a more productive and profitable operation.

This is a multiple-day (typically three-five), intensive, on-site, improvement event. WMEP consultants will lead this effort for you. It includes:

- Assessment of your company's needs
- Creation of a project plan
- Full implementation of the plan involving a limited number of select company staff
- Share the results with leadership

This event is designed for Quick-Payback and there is an immediate impact on the bottom line.

The economic benefits will be impressive and there is an ongoing ROI.

If your company does not see a demonstrable improvement, there is a money back guarantee.

We're successful because we want the same things you do including:

Cost & Efficiency - Increasing profitability through waste and downtime reductions, improved materials usage and operations, grant utilization and financial systems.

Growth - Growing revenues by reaching new customers and markets, new product development, exporting, adding capabilities through strategic hires, and improved employee productivity.

Winning Culture - Developing an environment and processes that attract and retain talent, grow employees' capabilities, and create an empowered workforce.

Certification & Compliance - Pursuing certifications that set a company apart as well as certifications needed to fulfill local, state, national and international qualifications and to achieve awards and grants.

WMEP's Value Proposition

How we're different	Why it matters	How clients benefit
We are an end-to-end solution. From supply chains to sales, we have the capability and networks to positively impact your business.	We understand the contributions of the pieces to the whole and use this understanding to help you optimize your enterprise.	We can identify the most impactful enhancements to make to your business to help you achieve your objectives.
We have extensive experience across all major manufacturing industry sectors in Wisconsin.	Our breadth and depth of experience working on projects and companies similar to yours increases our speed and effectiveness.	It takes less time for our staff to learn your business and objectives. We apply proven solutions to your business challenges.
We are all about manufacturing. We work with everyone and anyone who is committed to the success of manufacturing in Wisconsin.	We get manufacturing, and we're ready to roll up our sleeves and get to work to help you be successful and achieve your objectives.	In addition to our talented staff of experienced manufacturers, we provide access to our extensive national networks of industry experts.
We are evaluated by the results we produce for your organization. Your success is our reward.	Our objectives are aligned. We only recommend solutions that will help you achieve your business objectives.	Since the year 2000 we have generated over \$3.0 billion in total financial impact for our state economy, averaging slightly over \$450,000 per project.
