

Blended Learning with WMEP

Are you struggling with getting people trained given their schedules and/or geographic location?

Would a flexible, customizable 24/7 training option better fit your schedule?

Do you wish you had external coaching assistance?

Are you looking for a Spanish version?

Blended Learning from WMEP combines the convenience of self-guided on-line learning with one-on-one coaching.

WMEP's Blended Learning will build knowledge in:

- ▶ Lean Principles & Practices
- ▶ Lean Six Sigma
- ▶ Problem Solving
- ▶ Project Management
- ▶ Leadership
- ▶ Quality (ISO 9001) Internal Auditor Training

WMEP can not only tailor a self-guided curriculum that works for you, training is led by an experienced Coach utilizing webinar-based support.

There will be 3 options available for E-Learning:

- ▶ E-Learning Remote, No Coaching
- ▶ E-Learning, Blended On-Site Coaching
- ▶ E-Learning, Blended Virtual Coaching

WMEP Blended Learning brings to you:

- ▶ The convenience of a self-guided, limited customizable, interactive curriculum that is accessible 24/7
- ▶ Printable Student Guides to allow additional self-study
- ▶ Web access means no matter the distance or location, trainees have access to the materials
- ▶ Assessments ensure basic knowledge transfer
- ▶ The guidance of an assigned Coach with real-world manufacturing operations experience ensures application and learning of the materials
- ▶ You have the option of only doing Blended Learning or utilize it to augment traditional face to face training

BLENDING LEARNING WITH WMEP

WMEP brings a wealth of manufacturing experience and a deep knowledge base in achieving Operational Excellence whether it be lead-time reduction, cost reduction, improved quality or improved on time delivery etc.

WMEP offers a full suite of services in:

- ▶ Lean Six Sigma
- ▶ Value Stream Mapping
- ▶ 5S
- ▶ Quick Response Manufacturing
- ▶ Plant Layout
- ▶ Quick Changeover
- ▶ Certifications
- ▶ Sustainability

WMEP's Value Proposition

040221

How we're different	Why it matters	How clients benefit
We are an end-to-end solution. From supply chains to sales, we have the capability and networks to positively impact your business.	We understand the contributions of the pieces to the whole and use this understanding to help you optimize your enterprise.	We can identify the most impactful enhancements to make to your business to help you achieve your objectives.
We have extensive experience across all major manufacturing industry sectors in Wisconsin.	Our breadth and depth of experience working on projects and companies similar to yours increases our speed and effectiveness.	It takes less time for our staff to learn your business and objectives. We apply proven solutions to your business challenges.
We are all about manufacturing. We work with everyone and anyone who is committed to the success of manufacturing in Wisconsin.	We get manufacturing, and we're ready to roll up our sleeves and get to work to help you be successful and achieve your objectives.	In addition to our talented staff of experienced manufacturers, we provide access to our extensive national networks of industry experts.
We are evaluated by the results we produce for your organization. Your success is our reward.	Our objectives are aligned. We only recommend solutions that will help you achieve your business objectives.	Since the year 2000 we have generated over \$3.0 billion in total financial impact for our state economy, averaging slightly over \$450,000 per project.
