

EXPORTECH™

ExporTech™ is a proven path to export success.

Develop a customized, action-oriented export expansion strategy and start growing your business. Graduates of ExporTech have achieved sales increases averaging \$900,000 in 6-9 months after completing the program.

Driving growth is the key to success

Business growth comes from three sources:

- Increasing existing sales
- Bringing new products to market
- Exporting

Forward-thinking Wisconsin companies are taking advantage of the explosive growth seen in other parts of the world. Today, 95% of consumers are outside the United States, and small to midsize Wisconsin companies are profiting from this global demographic.

Successful companies are tapping into new markets with a customized export expansion strategy. They've done the analysis and they're targeting the top two or three countries that have the greatest revenue potential and the least risk.

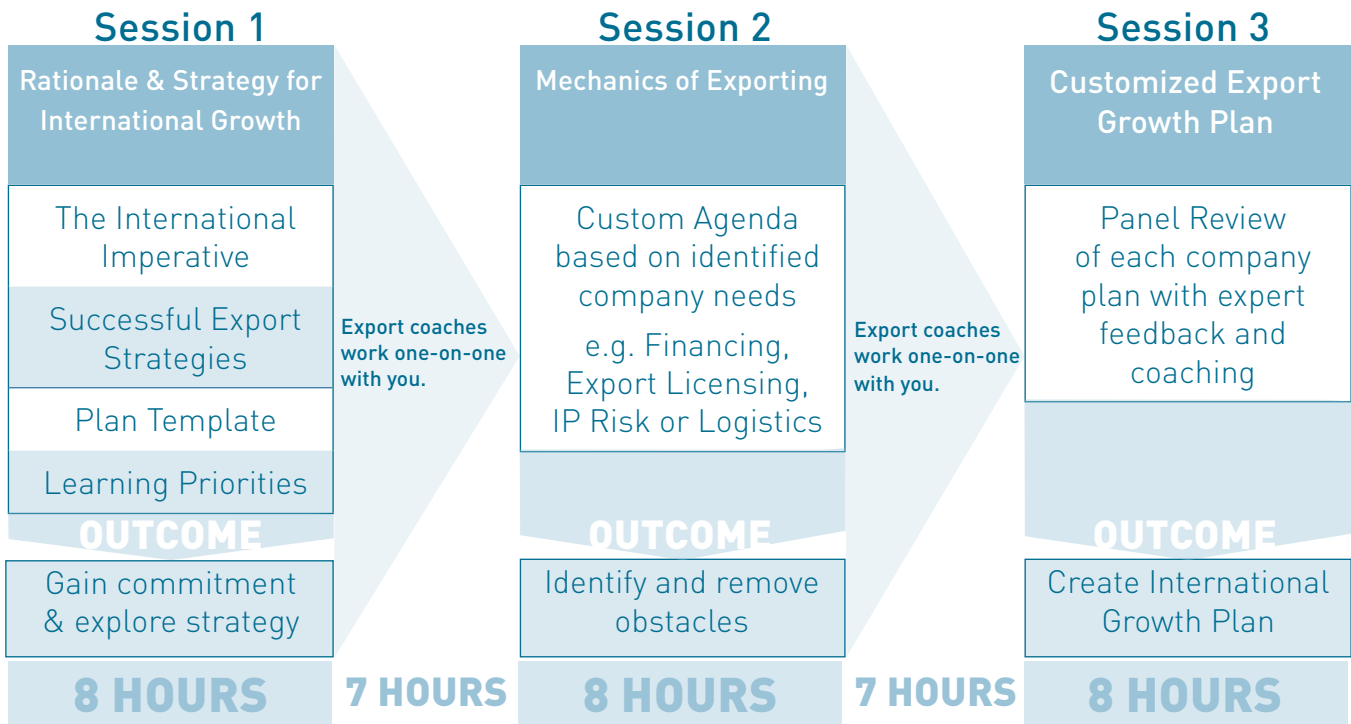

How ExporTech™ works

A carefully selected group of up to eight non-competitive companies share three full-day events scheduled approximately one month apart. Participants will learn how exports can dramatically drive growth, identify hurdles to expansion, and develop a customized international growth plan.

Success in exporting relies on executive support. ExporTech requires commitment from at least two top senior executives, i.e. owners, CEOs and other executive leadership.
